

OBJECTIVE: To understand the importance of migration to the history and heritage of the Caribbean; to practise creating a map key.

1. Write the name of each migration event that the clues below describe.

a. This migration occurred from the 1830s–1920s.

b. 4.5 million people were forced to settle in the Caribbean.

c. Serious labour shortages after the Second World War caused this migration.

d. This migration brought the Carib and Taíno people to the Caribbean.

e. Christopher Columbus led the voyage in this migration.

2. Use different coloured arrows to show the first three major migrations into the Caribbean on the map below and create a key to show what each coloured arrow represents.
