Review Booklet

This booklet provides you with a quick and easy way to review and reinforce what you have learned during your Japanese audio course. However, the booklet should be used *after* you have begun working through the audio recording *not before*, as the booklet is not designed to teach you Japanese by itself.

How to use this booklet

This booklet has been designed to provide you with a quick and easy way to review and reinforce the key vocabulary, structures and contents of your Paul Noble Method Japanese course.

Although the core part of your learning will take place via your use of the accompanying course recordings, we have also included this booklet in order to provide you with a quick reference guide to the language.

It is worth noting that this booklet should be used *after* you have begun working through the audio recording. It will serve as excellent reinforcement, guidance and review material but is not designed to teach you Japanese by itself. This is what the audio recording will do – and very rapidly too. After you have begun listening to the course, you will then find this booklet to be an extremely useful review and reference resource but you must start by listening to the recording first.

So, if you haven't done so already, go and press play on that first audio track and get started. You're about to find out just how good a course this is

Core course review

The best way to use this part of your booklet is to start by reading through a page, looking at both the English and the Japanese. Then go back to the beginning of that same page and, while covering the Japanese side of the text, translate the English into Japanese – just as you did when you listened to the audio part of the course.

Once you can get 90% of a page's content correct, move on to the next page and follow the process again. By doing this, you will quickly recall and reinforce what you learnt with the course recordings.

What should I do next?

If you've found the course useful then I hope you will continue learning with me using my 12.5-hour course, entitled "Learn Japanese with Paul Noble".

It extends what you learned in this course and is designed to take your Japanese to the next level.

See you then!

Paul Noble
