

I am Kora and I want to write invitations for my birthday party.

We can learn how to write together!

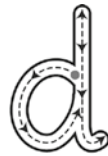

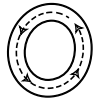

Below are four letters that belong to the same **handwriting family**.

They are all a similar shape to the **letter 'c'**.

Look at the curly caterpillar!

Trace over the letters with your finger a few times and then write over them.

Always begin with the start dot and follow the arrows.

1

Practise writing these four letters. Remember to start at the dot!

2

Fill in the missing letter beside each picture.
Copy each word below.

a nt

_ arrot

ant

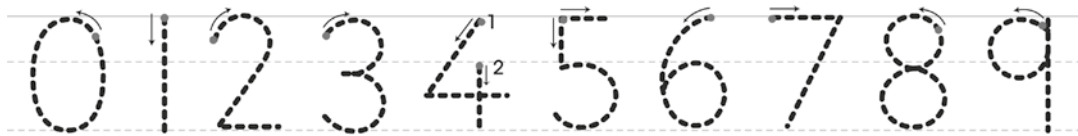

_ og

_ range

- 1 Carefully write over every digit.
Always start at the starting dot.

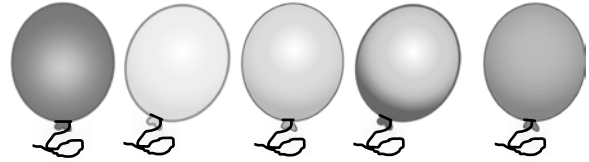

- 2 Trace over these two-digit numbers.

3

Kora is finally writing her birthday party invitations.
Copy the invitation below for one of your friends.

Dear _____

You are invited
to my birthday
party

on _____

From _____
