'Flipped Learning' – an innovative approach

Get Ready for IELTS' flipped learning approach, in which students do pre-class preparation, maximises the usefulness of time spent in class ensuring teachers are able to focus on key skills development and exam strategies in the classroom. Here are the three steps to the **Get Ready for IELTS** flipped learning approach.

STEP 1 – PRE-CLASS PREPARATION

Students prepare for their IELTS class with the language development activities in the online resources on **Collins Connect**. By learning vocabulary and grammar in advance, students can focus on learning the skills and strategies for passing the test in class.

Alternatively, students can do this pre-class preparation in their Workbook.

STEP 2 – SKILLS DEVELOPMENT

In class, students learn the skills they need for the exam through the skills development activities in the Student's Book. Strategies for achieving good IELTS scores are also highlighted. Teachers can support students as they work through the course.

STEP 3 – EXAM PRACTICE

Each unit in the Student's Book contains exam practice, which gives students the opportunity to practise the skills they have been developing by providing realistic exam practice. The format follows the actual exam and teachers can use this to check their students' progress towards being ready for the test. This part of the Student's Book can also be set as homework, giving teachers further flexibility.
