

# Discover how the world has changed with the 14th edition

‘...by far  
and away the  
greatest book  
on earth’

*Ranulph Fiennes*

## UPDATES

- ◆ 5000 place name changes, most notably in Japan, Brazil, South Korea, Taiwan and Spain
- ◆ A beautifully illustrated section on current issues, including economy, population and energy
- ◆ Updated national parks and conserved areas including the Kavango Zambezi Transfrontier Conservation Area (KAZA TFCA), the largest conservation zone in the world
- ◆ Addition of over 50 major waterfalls around the world

## GEOPOLITICAL CHANGES

- ◆ Realignment of the international boundary between Burkina Faso and Niger
- ◆ New administrative structures in Burkina Faso, Côte d’Ivoire, Kenya and Madagascar, and the addition of the long proposed new Indian state of Telangana
- ◆ Updated population of Brazilian towns from new census information
- ◆ Disputed boundary around Crimea

## NEW FEATURES

- ◆ A lavish double page map spread of the Arctic Ocean
- ◆ New maps of the sub-ice features in the Antarctic and Arctic Ocean
- ◆ Physical maps of all the continents showing land features which offer a useful counterpoint to political mapping
- ◆ Fascinating illustrated articles on Biodiversity and Climate Change
- ◆ The Power of Maps – this new section illustrates the influence maps have had on all of our lives
