

🐾 Chocolate nest 🐾

Ingredients:

- Block of cooking chocolate
- Shredded Wheat
- Packet of little chocolate eggs
- Small cake paper cases
- Two bowls
- Wooden spoon
- Teaspoon
- Tray or box

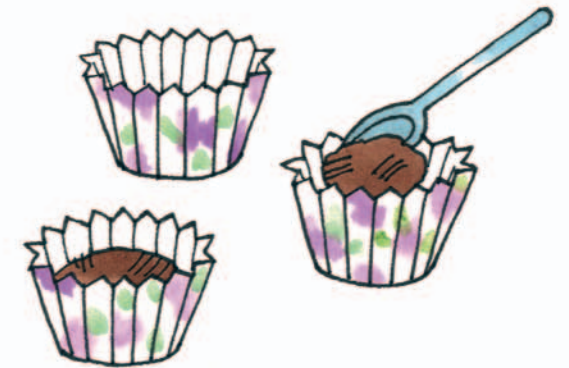

- 1 Help your child break the chocolate into pieces and place them in a bowl. Carefully melt the chocolate over a pan of boiling water or in the microwave.

- 2 Crumble the Shredded Wheat into the melted chocolate and ask your child to help mix them together.

- 3 Ask your child to spoon some of the mixture into one of the paper cases to make a nest shape, leaving a hollow in the middle. Fill as many cases as you can!

- 4 Put 2 or 3 little chocolate eggs into each hollow. Put the finished nests on a tray or in a box in the fridge to set.
