Destination Italian

Welcome to your *Destination Italian* course supporting booklet!

This booklet is your companion to, and extension of, the recorded part of your *Destination Italian* course. And it is probably best if we begin by explaining how these two parts work together to make up *Destination Italian*.

Your *Destination Italian* course has been designed so that once you have worked through it, you should be able to take a trip to Italy and chat with the locals when you are confronted by those various types of situation that we all encounter when travelling.

Many of us, at some point in our lives, have picked up a phrasebook in order to *try* to do this exact thing. We might have used one to order a meal or to book a taxi or to buy some tickets. One drawback of using such a phrasebook, however, is that you always need to carry that phrasebook around with you wherever you go. You then also have to take it out each time you want to use it, then find the right page and then try to pronounce what it says correctly. Not only this but, if the phrase you find isn't *exactly* what you're looking for, what are you going to do then? If you can't alter it, then it probably won't be of much use to you.

These drawbacks, which affect phrasebooks, will not apply to this course. Instead, *Destination Italian* will teach you how to construct the language *by yourself, independently*. You'll learn how to put the sentences together yourself and the language will be introduced to you in such a way that you'll be able to remember it without even trying.

So, once you've finished listening to the course, and then later reading through this booklet, you will no longer need to carry a phrasebook around at all. Instead, it will be in your head! And you'll be able to adapt the phrases and sentences you have learnt so that you will have far more flexibility in terms of what you can say than you would ever have had with a normal phrasebook. And, more than that, you will actually understand what it is you're saying!

How to use this booklet

This booklet has been designed to provide you with a quick and easy way to review, reinforce and extend the key vocabulary, structures and content that you'll learn through listening to the recorded part of your *Destination Italian* course.

The first part of your learning will therefore take place via your use of the accompanying course audio. Then, once you have listened to the audio, this booklet will make it possible for you to extend your knowledge of Italian still further, by allowing you to acquire additional words and components.

It is worth noting, however, that this booklet should be used *after* you have begun working through the accompanying audio tracks. It will serve as excellent review and extension material but it is not designed to start you off in the language. This is what the audio will do – and very rapidly too.

Easy reference script

The best way to use this part of your booklet is to start by reading through a page of the easy reference script, looking at both the English and Italian. Then go back to the beginning of that same page and, while covering the Italian side of the text, translate the English into Italian – just as you did when you listened to the audio.

Once you can get 90% of a page's content correct, move on to the next page and follow the process again. Doing this, you will quickly recall and review what you learnt with the audio.

(Note: Track numbers have been included in the script. This will allow you to know exactly where you can locate anything you might wish to review from the easy reference script.)

Track 3

I have

visited

I have visited

Rome

I have visited Rome.

Naples

I have visited Naples.

You have

You have visited Naples.

You have visited Rome.

Have you visited Rome?

Have you visited Naples?

Track 24

The café scenario

Traveller I would like a table for two people, please. Vorrei un tavolo per due persone, per favore.

Traveller Two coffees and a risotto, please. Due caffè e un risotto, per favore.

Traveller How much is it? Quant'è?

Waiter Ten euros. Dieci euro.

Traveller I would like to pay by credit card, please. Vorrei pagare con la carta di credito, per favore.

Building on what you've learned

In a similar way to how you have used the easy reference script above, the best way to use this part of your booklet is to start by reading through a section, looking at both the English and Italian. This time, however, make sure you also pay attention to the pronunciation guidance provided next to new words.

Once you have read through a section in this way, go back to the beginning of the same section and, while covering the Italian side of the text, try to translate the English into Italian. If you have forgotten some of the words, don't worry – this is not about memorising! Instead, simply work your way through the rest of the section and then start the same section over again.

Once you can get 90% of a section's content correct, move on to the next section and follow the process until you have completed each and every section.

Finally, once you have done all of this, take a break for a day *and then repeat the entire process a second time*. Doing this, you will find that you very quickly and thoroughly absorb the new vocabulary and components that have been introduced without ever trying to memorise them. You will instead simply "pick them up" by working through them. Now, get going with it!

I have ordered...

I have ordered

I have ordered a pizza.

I have ordered a risotto.

I have ordered a coffee.

sandwich

a sandwich

I have ordered a sandwich.

a sandwich and a coffee.
