

Unit 16 - Louisa (Germany)

Um, I'm interested in fashion ... um ... since, I don't know, not long ago. I started like a couple of month— years ago— I don't— I'm not quite sure actually— just developed kind of. Um, I think it's very, I don't know how to explain that, but ... um ... you can express yourself in, like, what you wear and, like ... um ... you feel comfortable in what you wear, so ... And I started looking at blogs and got interested in designers and ... um ... started having my own blog and ... um ... um ... It's just ... um ... it's a nice way to— to show everyone how you are and, like, to yourself how you are, you can express yourself with what you wear, I think. Um, the blog is mainly about like ... um ... music and fashion, art and my life, I guess, like every other blog, but it's fun to show my friends and my family and people who are interested in that, what I do, what I like ... yeah.
