- Deliver the requirements of the **Cambridge Primary Science** curriculum framework
- Excite students with stunning visuals
- Save preparation time with clear Teacher's Guides

**FREE SAMPLES AVAILABLE!**

# Collins

## INTERNATIONAL PRIMARY SCIENCE

**Collins International Primary Science** provides a progressive and student-centred scheme for primary pupils worldwide. Inspiring visuals and activity-based investigative tasks stimulate children's interest and promote independent learning.

### How does Collins International Primary Science work?

- **Motivates with stunning visuals** – the photograph-rich, full-colour Student's Books and the visuals on the DVDs get students excited about science.
- **Has student-centred learning at its heart** – activities designed to develop scientific enquiry skills help every child to progress and further independent learning.
- **Supports every child** – differentiation is clearly built into the lesson plans in the Teacher's Guides and levels are indicated against the Student's Book activities.
- **Saves planning and preparation time** – the comprehensive Teacher's Guides include clear suggestions for using the materials and the electronic components of the course.
- **Provides continuous assessment** – there's built-in ongoing, regular assessment and the course provides feedback and encouragement to students.

**Request a sample copy and try Collins International Primary**

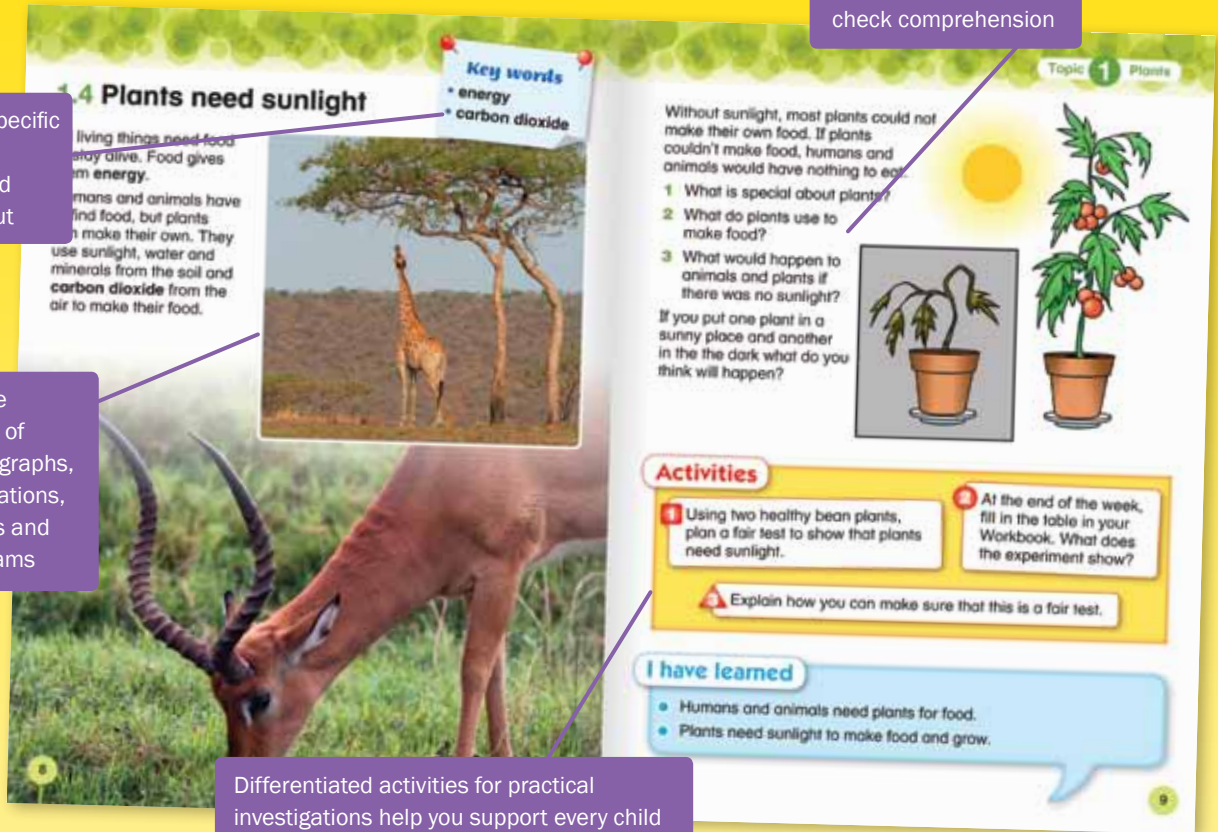

## Student's Books

Discussion points for each lesson help check comprehension

Subject specific language introduced throughout

A wide range of photographs, illustrations, charts and diagrams

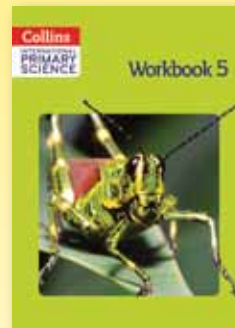

Differentiated activities for practical investigations help you support every child

## Teacher's Guides

- Provide comprehensive lesson planning support
- Include information on scientific background
- Help support mixed abilities
- Contain copymasters for the accompanying Student's Book

## Workbooks

- Help students record observations, investigation results and key learnings
- Guide students to record work with structured write-in spaces
- Provide an opportunity to give students written feedback

## DVDs

The DVDs are fully-integrated with the course materials and provide stimulating electronic resources to support learning and assessment, including:

- Slideshows
- Video clips
- Additional photographs
- Interactive classroom activities
