

# Fast word cards for pairs game

## How to use this resource

You can use these cards for pairs games:

1. Print the complete set of fast words on pages 2–15 onto some card or thick paper.
2. Cut out the pairs of cards. You can take out any fast words that the children haven't yet covered.
3. Place the remaining cards face down on a table.
4. Taking turns, children turn over two cards each.
5. Each child reads out the word on each card and when they pick up a pair, they can keep the cards. If they don't pick up a pair, they should place the cards face down on the table where they found them.
6. The player with the most pairs wins the game.
