

The following table lists all of the natural environment photographs in this image bank. The third column indicates for which lesson plan(s) the photos will be useful. The final column indicates whether the photo also appears in the Student Book, and if so, on what page. If a photo has \* next to the image number this indicates the image is subject to copyright and licence restrictions and may only be used for class teaching. See License agreement for more information. Images not marked or with a Creative Commons licence (e.g. CC by 3.0 or CC by-SA 3.0) may be used outside the classroom provided the photographer credit information is retained. All images have their individual copyright or credit information noted at the bottom of each page.
